

Prohibited and restricted items

While you can sell and purchase almost any media on AMP, maintaining the safety of our community is a responsibility we take very seriously.

For this reason, and to comply with local legal restrictions, some categories of products are restricted, or completely banned from being listed. Sellers will list items that can not be advertised, but ultimately, they have the right to reject ads they determine to be prohibited in their best business judgment.

If you're not sure if an item you're intending to list is allowed or not, choose the relevant category from the list below to find out.
